

GREEN NEXUS ADVISORY

Environmental Governance · Energy · Climate · Sustainability

Tirana, Albania · www.greennexusadvisory.com · greennexusadvisory@gmail.com

Who We Are

Green Nexus Advisory (GNA) is a specialized consultancy operating at the intersection of environmental governance, energy systems, and climate resilience. We support public institutions, international organizations and NGOs in designing and implementing evidence-based policies, programmes and evaluations that deliver measurable impact.

20+ years of senior expertise combining strategic policy advisory, field-based implementation experience, and strong analytical and evaluation capacity.

Core Services

1. Environmental Governance & Policy

- ▶ Biodiversity and protected areas governance
- ▶ Environmental crime and enforcement frameworks
- ▶ EU approximation (Chapter 27)

2. Energy & Climate

- ▶ Municipal Energy Management Units (MEMU)
- ▶ Data systems (EnerCoach, MECAP)
- ▶ Climate mitigation and adaptation planning

3. Monitoring, Evaluation & Learning (MEL)

- ▶ Mid-term and final evaluations (OECD DAC criteria)
- ▶ Results-based frameworks
- ▶ Impact and performance assessments

4. Local Development & Participation

- ▶ Stakeholder engagement frameworks
- ▶ Public participation methodologies
- ▶ Youth and community-based development

Our Approach

GNA applies a results-driven, client-oriented methodology rooted in management consulting practice — purpose before problem, client ownership, and knowledge transfer at every step.

- ▶ Evidence-Based — grounded in data and field realities
- ▶ Policy-Relevant — aligned with EU and international frameworks
- ▶ Participatory — engaging stakeholders at all levels
- ▶ Impact-Focused — delivering actionable, measurable outcomes

Selected Project Experience

Mid-Term Evaluation — PAMANCA Project (2026)

Client: EcoAlbania, Forumi i Mendimit të Lirë, ResPublica · Funded by the European Union

Scope

- ▶ Independent mid-term evaluation of a multi-partner environmental governance project
- ▶ Assessment based on OECD DAC criteria

Impact

- ▶ Actionable recommendations for adaptive management
- ▶ Strengthened accountability and donor reporting
- ▶ Supported alignment with EU environmental standards

Public Participation Guide for Ecocorridors (2025–2026)

Client: EcoAlbania

Scope

- ▶ Practical guide for stakeholder engagement in ecological corridors

Impact

- ▶ Structured methodology for inclusive decision-making
- ▶ Stronger participation of local communities in biodiversity governance
- ▶ Enhanced long-term sustainability of conservation interventions

SEMP Project — Municipal Energy Management (2025–2026)

Client: SECO Programme · Municipalities of Pustec and Saranda

Scope

- ▶ Establishment of Municipal Energy Management Units (MEMUs)
- ▶ Data collection, validation and analysis using EnerCoach

Impact

- ▶ Structured energy data systems for municipal decision-making
- ▶ Improved transparency on energy consumption and costs
- ▶ Climate mitigation through data-driven planning

Mapping of Local Artisans — Korça Region (2025)

Project: Nature Incubator (Green Belt) · Client: ACEG & Korça Alpin

Scope

- ▶ Field mapping and profiling of artisans and traditional producers across Korça, Prespa and Devoll

Impact

- ▶ Strengthened local economic value chains
- ▶ Integration of livelihoods into conservation initiatives
- ▶ Inputs for sustainable tourism and regional identity

Youth Needs Assessment — Municipality of Kavaja (2025)

Project: “E ardhmja e Bashkisë — ndërtuar mbi rini të fortë” · Client: Institute for Albanian Municipalities (IBSh)

Scope

- ▶ Comprehensive assessment of youth needs and priorities

Impact

- ▶ Evidence base for youth-focused municipal policies
- ▶ Strengthened participatory local governance
- ▶ Informed future programming and investments

Water-Related Conflicts in Albania — Book

Authored by Elton Qendro · ISBN 978-3-659-71253-1

Scope

- ▶ Peer-reviewed book on drivers, actors and governance of water-related conflicts in Albania

Impact

- ▶ Typology and mapping of water conflicts across basins
- ▶ Reference work for researchers, donors and policymakers
- ▶ Recommendations for inclusive water governance and dialogue

Key Achievements

- ▶ Supported municipal energy systems in multiple Albanian municipalities
- ▶ Contributed to environmental governance reforms and EU alignment
- ▶ Delivered high-quality evaluations for donor-funded programmes
- ▶ Strengthened local participation and community engagement models
- ▶ Bridged policy design with real-world implementation

Why GNA

- ▶ Deep knowledge of Albania and the Western Balkans
- ▶ Proven experience with EU, UNDP and GIZ frameworks
- ▶ Strong combination of policy, technical and field expertise
- ▶ Trusted partner for institutions and development organizations
